

Toilet Training Form for 3 year old students

Many of you are or will be in the process of toilet training your child. We will help you with this training in every way we can.

The Adventure Preschool's definition of "Potty Trained": The child is able to inform the teacher of their need to use the potty, the child can independently take clothing on and off, should not be wearing "Pull Ups." The child can get on and off the toilet by themselves and wipe her/herself and wash their own hands. Teachers in our preschool program will help coach a child who is having difficulty with the process.

- **Children enrolling in our 4 year old program** must be fully potty trained before the first day of school. If a 4 year old student has three potty accidents they will be suspended for one month.
- **Children enrolling in our 3 year old program** must fill out a potty training form by August 1, 2019. This form will let the registrar know if the child is fully potty trained.
- We must insist that children who wear traditional cloth training pants to school must also wear plastic pants over them until they are no longer having accidents. Plastic pants are not a requirement for those children who choose to wear Pull-Ups type disposable training pants. We cannot accommodate potty chairs in the classroom.
- **Children enrolled in our 3 year old program who are not fully potty trained** will be placed in a classroom that is set up for non-potty trained students. This classroom will have a diaper changing station and two teachers. There will be a nominal monthly fee charged until the child is fully potty trained, then the fee will be dropped. (A child attending 2 days a week will have \$20/month added to their tuition, \$30 for a child attending 3 days a week and \$50 for a child attending 5 days a week). **The children enrolled in our 3 year old program must be fully potty trained by January 1st 2020.**

Please complete the form below and return to the preschool

No Later than August 1st 2019.

Child's Name: _____ **Date of Birth:** _____

My 3 yr. old Child is Potty Trained as described above: Yes ____ No ____

My 3 yr. old Child will need to be placed in a classroom equipped for non-potty trained children. Yes ____

I understand that my child needs to be fully potty trained by January 1st 2020.
